

GARDEN FEVER VEGETABLE & HERB STARTS

EMAIL YOUR ORDER TO: info@gardenfever.com

Send us an email with a list of what you would like to purchase & YOUR PHONE NUMBER.

These starts have been hardened off but we recommend covering with a frost blanket at night, the first week they are in the ground.

If the temperatures at night or during the day are going below 34, we suggest a covering with a frost blanket also. Especially if the starts have just been planted and have not had time to establish their root systems. If in a container, just put the container in the garage for the night and if a cold day, cover with a frost cloth.

BE SURE TO WATCH THE WEATHER!
