

## GARDEN FEVER VEGETABLE & HERB STARTS

**EMAIL YOUR ORDER TO: [info@gardenfever.com](mailto:info@gardenfever.com)**

**Send us an email with a list of what you would like to purchase & YOUR PHONE NUMBER.**

These starts have been hardened off but we recommend covering with a frost blanket at night, the first week they are in the ground. **If the temperatures at night or during the day are going below 34, we suggest covering with a frost blanket also.** Especially if the starts have just been planted and have not had time to establish their root systems. If in a container, just put the container in the garage for the night and if a cold day, cover with a frost cloth. They will also do much better if the soil is heated by covering in **BE SURE TO WATCH THE WEATHER!**
